However, because of growth in the Township, the Township will collect about \$330k more in property taxes spread over seven funds, including the Museum and Four Pointes that are outside of Township control.

Robert Pett (*14710 Pine Dew Drive*) questioned whether the additional tax monies were “needed” by the various Funds.

Further, Treasurer Kieft expressed concerns with having a developer on the Planning Commission when the developer was representing a pending applicant (*i.e., Aldi Foods*).

Supervisor Reenders noted that Wilson had an approved site plan that would allow him to address the on-going storage container violation and stated that the Planning Commission benefited from having members that are knowledgeable in the development process, including able to read blueprints.

Questions were raised as to whether the storage container violation continued and if Wilson has a plan to address the matter. Manager Cargo noted that the violation continues until the storage container is removed.

FROM: Karen Sherwood
RE: Approve Hire of Part-time Firefighter: ORTEGA

Overview and Process

The PT Firefighter position has continued to be posted. The Township continues to review applications as they are received. The Township is currently seeking candidates who are trained and qualified to work as a firefighter since we have several candidates who are going through training. Samuel Ortega has applied for a part-time firefighter position.

Samuel Ortega

Ortega and his wife, Chey, arrived in Michigan completely by accident ten years ago and have been here ever since, coming to love Grand Haven and the surrounding areas more and more each year. Ortega is currently a full-time firefighter for the Grand Rapids Fire Department. He enjoys his career as a firefighter with the variety of calls and being able to help people. Ortega has already secured his Firefighter 1, Firefighter 2 and, EMT certifications and has served as a firefighter for seven years. In his free time Ortega enjoys jui jitsu, cross fit, reading, backpacking and camping. Ortega, as he claims, has two “wild” little boys and a little girl that love camping their way around the state. Both him and his wife have decided that sleep is completely overrated as they are expecting twins in November.

Pursuant to state law, the recommendation of **Samuel Ortega** as the next Part-Time Firefighter for Grand Haven Charter Township must be approved by the full Township Board. To affirm this selection, the following motion can be offered:

Motion to approve the selection of Samuel Ortega as part-time firefighter for Grand Haven Charter Township, effective immediately.

If you have any questions or concerns, please contact Sherwood at your convenience.

RE: Fire Station Technology and Security

Over the last 6 months, the Fire/Rescue Department has been vetting vendors to provide low voltage data cabling, security cameras, door access readers, and AV technology for the new Fire Station. This work includes pulling data cable from the administration office server room to locations throughout the new station, installing cameras around the exterior and interior of the station. Providing and installing door card readers throughout the new station. We received quotes from ElectroMedia, CS Erickson and Rycenga Electric.

Grand Haven Township Fire Rescue recommending ElectroMedia for the following reasons:

1. ElectroMedia had the most complete and lowest bid based on estimates received.
2. They currently install and service phones, cameras, and other equipment for the Township.
3. The pricing, that we have received, is \$700 below budgeted estimates.

The following work is divided up into Five work categories.

- | | |
|--|----------|
| 1. Audio Visual | \$31,209 |
| 2. Data Cabling | \$45,106 |
| 3. Camera Security System | \$24,585 |
| 4. Door Lock and Access | \$24,270 |
| 5. IT Room Configuration and Battery Backup Set-up | \$10,100 |

If the Board agrees to proceed and authorize the purchase, the following motion could be offered:

Move to authorize the purchase of audio visual, data cabling, camera security, access control system and IT configuration from ElectroMedia in the amount not-to-exceed, \$135,270 payable from the Fire Station Construction Fund.

Please contact me prior to the Board meeting with any questions or comments.

PUBLIC SERVICE'S MEMO

DATE: September 4, 2024

TO: Township Board

FROM: Wade

SUBJECT: Parking Ordinance Amendment – Second Reading

The Schmidt Heritage Park (SHP) sports fields opened to the public in Spring of 2024. Since the opening of the sports fields, the Park has gained popularity with increased useage from different recreation groups and leagues. Now that the Park is in its first full season, it continues to gain attraction. During the first summer season Township Staff observed a need for parking restrictions along Ferris Street.

Public Services Director Wade has responded to multiple occurrences where Township staff and Township residents have witnessed 10-20 vehicles parking along the Ferris Street Right-of-Way to access the SHP soccer fields. During the time that cars were parked along Ferris Street there have been 100+ parking spaces available within SHP. Parking in the grass Right-of-Way along Ferris can be unsafe especially when trying to reenter a 45mph road from the grass, with low visibility. SHP was designed with a large amount of available parking as well as following the Americans with Disabilities Act (ADA), allowing ADA access to all sports fields.

A Parking Ordinance Amendment would give the Township and the Ottawa County Sheriff's Department the ability to enforce no parking along the North and South side of Ferris Street extending from the Westerly point of SHP to the Easterly point of Hofma Park.

If the Board members agree with these proposed changes to the Parking Ordinance, the following motion can be offered:

Move to approve and adopt the proposed amendments to the Parking Ordinance that will prohibit parking in the entire width of the Ferris Street Right-of-Way, extending across Schmidt Heritage Park and Hofma Park.

If you have any questions or comments, please contact Wade.

Dear Leaders of MISO, Consumers Energy, Wolverine Power, Michigan Public Service Commission, the State of Michigan, and other interested parties:

Our regional grid operator MISO reports that “the transition that is underway to get to a decarbonized end state is posing material, adverse challenges to electric reliability.”¹ On June 20, 2024 MISO released the following: “Today, MISO and the Organization of MISO States released the annual OMS-MISO survey results, which indicate a growing capacity deficit beginning in the 2025/26 planning year. Next summer, MISO could see resource sufficiency ranging from a 2.7 GW capacity shortfall to a 1.1 GW surplus, underscoring the need to accelerate resource additions, monitor large load additions, and **delay resource retirements to reliably manage the anticipated growth in electricity demand.**”² The North American Electric Reliability Corporation also warns of impending power outages in the coming years owing to a shortfall of electric supply to meet demand.³ Under these circumstances, it would be irresponsible to proceed with the planned 2025 closure and demolition of Ottawa County’s Campbell generating plant which provides electric to over 1 million regional residents. Its retirement should be delayed in accordance with MISO’s general recommendation.

Furthermore, the Federal Department of Energy is making rapid strides in the commercial extraction of rare earth minerals needed for battery production from byproducts of coal plants.⁴ In addition, coal-based Allam cycle technology is improving, such that sequestration of carbon dioxide from coal plants may be viable in the coming years, in response to concerns related to atmospheric carbon dioxide levels.⁵ Over \$1 billion was invested in the last decade in anti-polluting equipment in the Campbell plant. Demolishing the Campbell plant precipitously will preclude utilization of a valuable asset that can be retrofitted to meet changing demands.

There are also growing indications of an effort to resume electric generation from Palisades Nuclear Power Plant in 2025,⁶ likely as one effort to compensate for closures such as the Campbell plant. This would be the first time a formerly decommissioned nuclear plant would be re-commissioned, and that in a very short timeframe. We are concerned that the safety issues cited by nuclear engineer Arnold Gunderson and others are valid,⁷ and that the associated risks are far greater than simply retaining the Campbell plant in the fleet longer.

We request that you work together to delay the Campbell plant’s closure and demolition, so as to make unnecessary legal action to effect its delay. We also request that any restart of the Palisades be further delayed in order to make fully sure it does not re-start when not sufficiently confirmed as safe to do so.

Sincerely,

1

RE: Rezoning – Stevens – RP to RR

BACKGROUND

The applicant, Patrick Stevens, is requesting to rezone a vacant .54 acre parcel on Johnson Street (Parcel No. 70-07-03-300-009), from Rural Residential (RR) to Single Family Residential (R-2).

The rezoning application was tested against the “Three C’s” evaluation method.

The Planning Commission recommended the Township Board **approve** the rezoning application at the September 16th meeting.

Figure 1 - Zoning Map

COMPATIBILITY

Is the proposed rezoning **compatible** with the existing developments or zoning in the surrounding area?

The adjacent zoning is:

Direction	Current Zoning	Existing Use
North	RR	Residential
East	RR	Residential
West	RR	Residential
South	AG/RR	Twp Utility/Residential

CONSISTENCY

Is the proposed rezoning **consistent** with the goals and objectives of the Master Plan and does it coincide with the Future Land Use Map in terms of an appropriate use of the land?

The Future Land Use Map has master-planned the parcel for Medium Density Residential, which correlates with the R-1 and R-2 Zoning Districts. The applicant is requesting a rezoning to R-2.

The permitted uses for the R-1 and R-2 Zoning Districts are largely the same, with the difference being that R-1 could allow for a campground through a Special Land Use, and R-2 zoning allows for two-family dwellings as a Special Land Use. However, it does not appear this lot would be appropriate for either Special Land Use based on the current conditions of the lot. Notably – the size would likely limit the possibility of a campground use, and the lack of municipal sewer is not compliant with the SLU standards required for a two-family dwelling.

A comparison between the RR (current zoning), R-1, and R-2 (proposed zoning) dimensional requirements is provided in the table below. Rezoning the property from RR to R-1 or R-2 would reduce the required side yard setbacks and bring the current dimensional conditions of the lot into conformance with the Zoning Ordinance.

RR STANDARDS	R-1 STANDARDS	R-2 STANDARDS	SITE CONDITIONS
Minimum lot size – 45,000 sqft	Minimum lot size – 15,000sqft	Minimum lot size – 13,000sqft	Lot size - 23,460 sqft
Minimum lot width – 150 ft	Minimum lot width – 100 ft	Minimum lot width – 80 ft	Lot width – 138 ft
Minimum side yard setback – 20 ft	Minimum side yard setback – 15 ft	Minimum side yard setback – 10 ft	N/A

CAPABILITY

Does the proposed rezoning require an extension of public sewer and water, roadway improvements, or enhanced fire and police protection, and if so, is it in an area **capable** of being provided with such services?

Parcels zoned R-2 are required to have municipal water, sanitary sewer *if available*, and be served by paved roads.

Johnson Street is a paved road which is served by municipal water. Sanitary sewer is not available directly on Johnson Street, but is located nearby on 168th Avenue.

SAMPLE MOTIONS

If the Planning Commission finds the rezoning application meets the standards, the following motion can be offered:

Motion to present and postpone the rezoning application for Parcel No. 70-07-03-300-009 from Rural Residential (RR) to Single Family Residential (R-2). Further action will be postponed until the next regularly scheduled Board meeting when the Ordinance will be considered for adoption. **This is the first reading.**

If the Planning Commission finds the rezoning application does not meet the standards, the following motion can be offered:

Motion to deny the rezoning application for Parcel No. 70-07-03-300-009 from Rural Residential (RR) to Single Family Residential (R-2) based on the application not meeting the rezoning standards of the Zoning Ordinance and Master Plan.

If the Planning Commission finds the rezoning application is premature or needs revisions, the following motion can be offered:

Motion to table the rezoning application for Parcel No. 70-07-03-300-009, and direct the applicant to address the following items:
